With Sally

People clean house in different ways. Some of them do it so neatly, one room and even one corner at a time, that you would never know that they were cleaning at all if you didn't see the lady of the house surreptitiously emerging from underneath the sofa with a pink dustcloth in her hand.

Now our own theory of housecleaning is quite different. We like a grand furor, lots of noise and excitement, with the man from Beeson Cleaners coming up the steps with his arms full of pillows and rugs; the telephone ringing to say that Waxman's Bakery has a wonderful special on apple pie this week; John trying in vain to swallow a peanut butter sandwich from Westlake Market with the dust flying so thick you can't see across the room; and our new radio from Byrne's playing a crashing refrain from "Carmen."

So yesterday we pulled all the skeletons out of the closet, sent the children to the Daly City theatre, turned the sofas upside down and began to houseclean.

Now you may drop the grandfather's clock, tip over the piano or misplace the baby—but there is only one thing that spells real disaster when you are housecleaning—the unexpected arrival of company.

"Why Sally, you're housecleaning!" she shrieked. "How perfect!"

"Um" we muttered grimly, trying to extricate a chair from the debris. She had just come from Jack Carney's dance studio and was dressed for afternoon tea.

"And that thing on your head! What IS it?" she marvelled. "You do the funniest things, old dear."

We grit our teeth—or is it gritted?—anyway we did. Then we looked her squarely in the eye and asked her why she had to hurry away.

It was no use. She didn't even hear us. She was busily engaged in pulling a red flannel leg out of an old trunk.

"Sally, my dear," she howled. "Wait until I tell the girls about

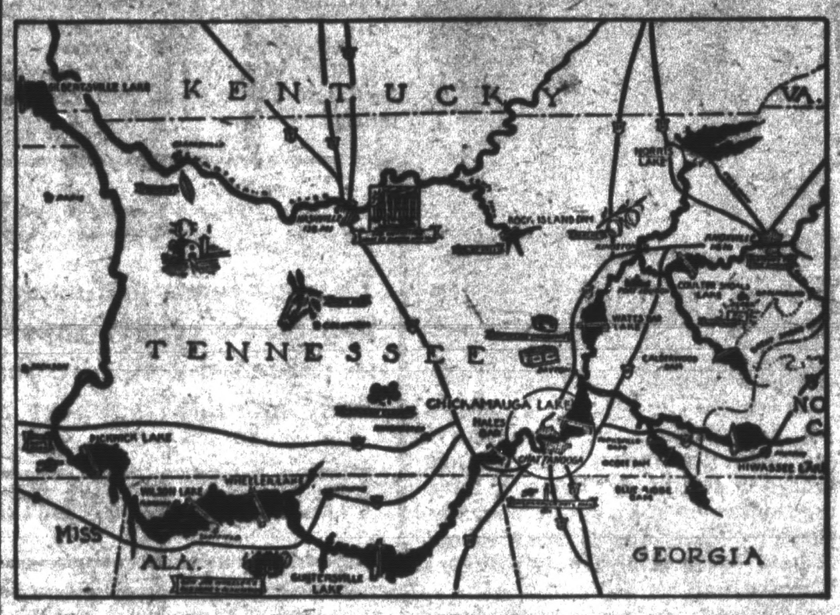
'Great Lakes of the South'



Representatives of 200 communities throughout the seven states of the Tennessee valley will unite at Chattanooga, Tennessee, Saturday, August 31, for a three-day celebration marking the dedication of Chickamauga dam and a chain of 10 new lakes extending 650 miles across the valley, impounded above the TVA power dams. Described as "The Great Lakes of the South," this new vacation area will also be a future concentration point for munitions manufacture in the defense program.

Million Guitar Players

More than 1,000,000 persons in the United States are guitar players.

Population Density

Washington, Oregon, Idaho and Montana are less densely populated than Russia.

World's Greatest Housekeeper

Probably the world's greatest housekeeper is the Pullman company which in a single year purchased 220,528 sheets, 157,780 pillow cases, 20,253 tidies, 455,829 hand towels, 24,318 headrest covers, 12,692 napkins and 3,260 table cloths, the Association of American Railroads reports.

Aluminum Softball Bat

A new product of the metal industries is an aluminum-alloy softball bat designed by a company in Cleveland. Weighing the conventional 32 to 33 ounces, the bat does not sting the hands because it is made of metal, and it cannot break in actual play.

Lake George Discovery

Lake George was discovered in 1646 by Father Isaac Jogues, known as the French ambassador of peace to the Indians. A statue of the priest and explorer has recently been unveiled on the shores of the lake.

Midway Islands Discovery

The Midway islands were discovered on July 5, 1859, by Capt. N. C. Brooks of the American-owned Hawaiian bark, Gambier, who took possession in the name of the United States. Captain Reynolds, in the U. S. S. Lackawanna, took possession formally on August 28, 1867.

Haiti Building Boom

Backed by United States credit, Haiti is launching a building boom which will include new roads, bridges and irrigation works.

Ladies Aid Offer Cash Prize

Need a little extra money next week? Some lucky whist player will take home a substantial cash first prize from the Catholic Ladies Aid Society, Branch 59, card party next Wednesday afternoon.

In addition to the cash first prize, there will be a number of other valuable awards. Playing will begin at 2 p. m. at St. Michael's hall, 32 Broad street, September 4.

Mrs. Curtin, chairman of the event, today extended a cordial invitation to the public to attend.

Slate Roofs

When the roof of a home is renewed, the matter of weight of the material selected must be studied carefully. If the old roof is of wood shingles, it is often possible to cover it without removing the old shingles, but if a heavy material, such as slate, is used, the frame must be checked to see if it will safely carry the added weight.

Scouting the Shops

(Continued from Page 1)

this. I never thought you wore red flannel underwear! It's just the color of those nice red tomatoes at Lucca Ravioli Company this week."

"Now listen here—" we began weakly.

"And this old wig—isn't it darling?" she raved. "I didn't know you kept things like this around, Sally." She looked suspiciously at our new fingerwave.

We grit—or gritted—our teeth again. We silently prayed for the courage to hurl the fresh chocolate pie from Geneva Bakery at her. Still it seemed a pity to waste such a good pie.

"Sally, dear," she was running on. "I think some one should tell you this. You know that odd little dress you wore to the party last night? Dear, it was really very baggy around the shoulders. The Los Olivos Tailor Shop could fix that for you in a jiffy. And anyway, Sally," she lowered her voice, "that awful Mrs. J o n e s down across the tracks has a dress just exactly like it, and y o u know how people talk—"

We counted hastily to 1000. We wished we had some arsenic to feed her instead of the decorated cake from the Magnolia Pastry Shop that she was devouring at the rate of three slices per minute.

"Darling, I'm not keeping you from your work, am I?" she wailed, with her mouth full of strawberry ice-cream from Farmers Market. "You mustn't mind me."

"Oh, no," we said, "you're not keeping us." The soapsuds on the window had hardened to the point where we would have to use an acetylene torch on it; flies were pouring in through the open attic window; the repair man from the Daly City Radio Shop was on the telephone; and the sliced ham from Robertson's Egg Store was burning to a crisp in the oven—but still she sat on.

Well, we didn't really intend to brood over our troubles like this. But as we said before, it isn't really the housecleaning that's the problem; it's the human element.

Treaty of Ghent

At Ghent, in Flanders, on December 14, 1814, the famous peace treaty was signed which formally declared at an end the War of 1812 between England and the United States. News of the treaty did not reach this country until February and fighting was still going on in Louisiana.

Tees for Three

At Yonkers, N. Y., a water tower marks the spot where the first golf tee in this country was located. Early aiblick fans, however, found the pasture was too hilly for golf and abandoned what might have been America's first golf course after only three holes had been laid out.

Football Trophy

The John W. Heisman Memorial trophy is awarded each year to the football player deemed the most valuable. It perpetuates the memory of a football coach and gridiron mentor at many colleges for 35 years. The Robert W. Maxwell trophy, also awarded to the outstanding player, is named in honor of Robert W. (Tiny) Maxwell, a former all-America player, sports writer and gridiron official. The August V. Lambert Memorial trophy, emblematic of leadership among eastern gridiron teams, was donated by Victor A. and Henry L. Lambert of New York city in memory of their father, an ardent football fan.

Girl Telephone Employees

The telephone company states that although male operators were used when switchboards were first put into service, it was soon found that the temperaments of men were not suited to such work, so in a comparatively short time they were replaced by girls. Since that time it has been the policy of companies to employ only girls.

His Hat in the Ring

"Mahatma" Bailey, assistant football coach at Washington State college, was married recently, reports the American Magazine, and among his wedding presents were 26,000 old hats sent by his alumni friends. They all remembered that Bailey has a habit of throwing his hat down and jumping on it whenever his team faces a critical moment in a game.

Cooking Lesson

Left at home to cook his supper while his wife was at the movies, a 28-year-old husband in Prague, Czecho-Slovakia, became so alarmed when the porridge boiled over and filled the kitchen with steam that he rushed to the theater, calling loudly for his mate. The attendants objected to this disturbance of the performance, but the frenzied man threatened them with violence if they interfered. Charged at the police court with disorderly conduct, he was bound over for 12 months.

War Casualties Listed

First casualties of the next war were the hens of Joe Mikulich, and he wants to know what the government is going to do in the way of reparations. While limbering up for Armageddon, if and when it comes, the field artillery of the California National Guard planted an explosive shell in Joe's chicken coop near San Pablo. There was heavy loss of life among the feathered noncombatants, and the survivors, suffering from shell shock, have not laid an egg since.

Record Size Salmon

The largest salmon ever caught in southeastern Alaska weighed 120 pounds. The fish was 53½ inches long and 36½ inches around. It was caught in a net. The previous record salmon weighed 116 pounds.

Youthful Dancers

Jacqueline and Buddy Peterson, youthful dancers, who are studying with the Jack Carney Dance studio in Daly City. The pair have made many public appearances in the Bay area. The Carney school is held each Saturday morning at Theatre hall.

A Poetic Recipe

By Frances Lee Barton

An inexpensive bag of pears; diced ginger, crystallized; some sugar — seven cups or more; Say! Aren't you tantalized? Fruit pectin and a kettle large; some jars; a little heat. That's all you need to make a jam that Dad says "can't be beat"

Ginger and Pear Jam

4 cups (2 lbs.) prepared fruit; ½ to 1 cup diced crystallized ginger; 7½ cups (3¼ lbs.) sugar; 1 bottle fruit pectin.

To prepare fruit, peel, core, and crush completely or grind about 3 pounds fully ripe pears. Dice about ½ pound crystallized ginger.

Measure sugar and prepared fruit, solidly packed, into large kettle. Add ginger, mix well, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in bottled fruit pectin. Then stir and skim by turns for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Paraffin hot jam at once. Makes about 11 glasses (6 fluid ounces each).

Bok Peace Award

In 1923 Edward Bok, the philanthropist, founded the American Peace award, offering $100,000 for the most practicable plan to establish and preserve the peace of the world.

Most Favored Nation

Under the amended 1930 Tariff act every nation is entitled to any reduction in duty given to any other nation, unless the President proclaims that a certain country is discriminating against our commerce. Such a proclamation was made by the President in regard to Germany. Germany is the only country to whom the most favored nation tariff policy is denied.

Proper Electrical Service

The home owner, when buying electrical equipment, is cautioned by the Federal Housing administration to bear in mind the type of electrical service he is to receive, as many electrical appliance usable on direct current will not operate on alternating current. Localities where direct service is supplied are declining, but it is still a factor.

American Family Income

Half of America's families receive less than $22 a week, half receive more.

Rubber Costumes

Rubber sheeting has been successfully used for stage costumes.

Card of Thanks

To my friends and supporters in my campaign for San Mateo county supervisor, first district, I wish to extend my sincere thanks and appreciation for their splendid support and spirit of cooperation.

Let's Have Supper *in the Garden*

suggests Dorothy Greig

In this garden or porch meal is one appetizing hot dish—a Casserole of New Potatoes and Green Peas in Mushroom Sauce.

"If you're good children, we'll have supper in the garden", mother used to promise us youngsters. And at that lovely prospect a positively angelic goodness descended on us like an aura.

In our family, a meal outdoors is still much gayer and more festive than any summer meal indoors could be. Food seems to taste better. Spirits bubble. And all the heat of the day is forgotten in the cool and fragrant quiet of the garden.

In serving a meal on porch or in the garden, place as much of the meal as possible on the table at the start. That saves running back and forth into the house.

For instance, supper might be something on this order:

Chicken-Celery Salad Rolls
Casserole of New Potatoes and Green Peas in Mushroom Sauce
Tossed Garden Salad with Chopped Herbs, Tomato French Dressing
Fresh Fruit Pie or
Assorted Cheese with Crackers
Iced Tea

This is a simple meal to prepare and the casserole of potatoes and peas provides that one hot dish which every summer meal should have. It is made this way:

Casserole of New Potatoes and Green Peas in Mushroom Sauce

12-14 small new potatoes
1 cup green peas, cooked
1 can condensed cream of mushroom soup
6 tablespoons milk

Cook the new potatoes in boiling salt water, then peel and put them into a casserole. Mix the milk into the cream of mushroom soup. Heat and add the cooked peas. Pour the green peas and sauce over the potatoes in the casserole dish and put into a moderate (350°) oven for 15-20 minutes. Serves 6.

The salad is one of my favorites:

Tossed Green Salad with Chopped Herbs

Put the garden greens for salad in a large wooden bowl. This may include tender garden lettuce, fresh young dandelion shoots, thin slices of radishes, and then sprinkle over the salad — chopped parsley, chopped fresh tarragon, chopped fresh chervil, chopped green onion tops or chopped chives.

Just before setting the salad on the table mix through it this dressing:

Tomato-French Dressing

1 tablespoon dry mustard
1 teaspoon salt
3 tablespoons sugar
⅛ teaspoon pepper
1 tablespoon grated onion
1 cup oil (olive or salad)
⅓ cup vinegar
½ can condensed tomato soup

Combine the dry ingredients and mix in the grated onion. Blend in the oil and let stand for 10-15 minutes. Add vinegar and tomato soup. Beat well until the dressing mixture is thick and well blended. Makes approximately 2½ cups of dressing.

This is a non-separating French dressing.

Location of Thermostats

Five feet above the floor is considered a generally satisfactory height for the location of thermostats. They should be placed in locations protected from drafts and not in contact with a large volume of air. The rather bulky thermostat of yesteryear has been beautified, and their location today on the living room wall does not mar the decorative scheme.

Radio Announcers' Diction

One of the requirements of the major radio networks is that announcers' diction should be free of all sectional accents.

Longest Army Gun Range

In the American army, the 16-inch gun has the longest range, approximately 30 miles. The Paris guns used in the bombardment of the city of Paris during the World war had a possible maximum range of 79.5 miles, the longest range of any gun known.

Money in Your Pocket

You don't have to shoot the bill collector or put in a new furnace to save on your winter fuel bill. Scientists of a major glass company have found that savings up to 30 per cent can be obtained by "window-conditioning" a house with storm sash.

Crater Lake's Formation

Crater lake in Oregon was formed by a natural collection of water in an extinct volcano. This lake, which is probably the deepest in the United States, has a depth of 2,000 feet.

Largest Underground Canal

The world's largest underground canal flows from the port of Marseilles to Fos-sur-Mer to the Port de Bouc, and is 4½ miles long, and has a width of 75 feet.

Beauty Touch in State Fair

Cosmetic cows will become a vogue at the California State Fair, Sacramento, Aug. 30 to Sept. 9, if Dorothy Wright has her way. Here she is applying eyebrow pencil to Quarrelsome Miss, entry in the Jersey section. Name bands will play at the fair nightly.

Rosebud's Grapevine

A single grapevine in Rosebud, Texas, covers the entire side of a building and is half a block long.

First Typewritten Manuscript

The first typewritten manuscript was of "Tom Sawyer," by Mark Twain in 1875.

OCEAN VIEW SECTION

Eight Ounce Gloves

The International Amateur Boxing federation has stipulated gloves in bouts under its jurisdiction must weigh eight ounces, the leather and stuffing not to exceed four ounces each.

'Boom Antwerp'

Americans in Antwerp, Belgium, are sometimes puzzled at the sight of large yellow busses bearing the legend "Boom Antwerp." These are not posters for a booster campaign, but indications that the busses will take you to the town of Boom, 12 miles away.

U. S. Mitten Centerpiece

Nearly two-thirds of all the lamb eaten in the United States is consumed north of Washington and east of Pittsburgh, an area which grows less than 5 per cent of the country's sheep.

Gorillas Are Sissies

The ferocity of the gorilla, terrifying "boogey" of screen and fiction, has been disproved by explorers. They agree in saying that the animal is extremely shy and difficult to catch sight of, often hiding in the thickest part of the woods on the approach of man.

On The Trail of Bargains With Ocean View Sue

Says Ocean View Sue:

There is only one sure way to get all that energy we need these days—and that is to eat plenty of nourishing food.

How about some delicious golden-brown hot-cakes for these chilly mornings? For that old-fashioned sour-cream flavor, try Sperry's Pancake and Waffle Flour, now on special for 26c at Paul Pesce's and Andy's Markets. Topped with maple syrup, hot-cakes are sure to hit the spot.

And why not make your vegetable salads the easy way? Pesce and Andy both sell a large can of vegetables for salad for only 15c. And while you're in there, you'll see sweet potatoes, 4 pounds for 15c and fresh limes for 10c a dozen.

Flash: has that old golf bag of yours seen better days? Take it to the Ocean View Shoe Repairing Shop for renovation. The New Home Beauty Shop specializes in attractive hair styles—why not give them a ring? Alemany Cleaners announce an extra-quick French Laundry service, while the Ocean View Bakery points out that they will make cakes to order very inexpensively.

If your infant is proving a problem, the Ocean View Toggery will help you with a complete line of infant wear; the Ocean View Pharmacy can furnish you with every drug need.

One last hint: Alemany Market's meats are tempting and tender. Sure Save Groceteria has some excellent specials this week: oranges, 3 dozen for 17c; Rinso, 18½c, and Kellogg's corn flakes, 7c.

Automobile Ownership

Only one-quarter of America's 24,000,000 automobile owners have incomes of $60 a week or more, according to a survey reported by a South Bend, Ind., manufacturer.

Favorite

Season after season this tailored classic remains ever popular—trim, comfortable, simple. It's a perfect back-to-college or back-to-business dress, and it's worn here by Phyllis Jeanne Creore, CBS songstress heard on the Hollywood "Dreams" production. The belt, echo of the dude ranch vacation, is a thin black leather strap studded with shiny nailheads. Front, "fly" again. (University Frocks, New York.)

'A Dog's Tale'

Mark Twain's "A Dog's Tale" was first published in Harper's magazine in December, 1903. Subsequently it was privately printed by the National Anti-Vivisection society. In 1904 Harper's brought out the story in book form.

Great Smoky Mountains

Dr. H. M. Jennison, University of Tennessee botanist, says the Great Smoky Mountains National park has nearly twice as many different kinds of trees as are found in all Europe.

Early Soil Conservation

One of the earliest suggestions of soil conservation in Massachusetts was an act of the general court in 1638, forbidding farmers to turn their live stock loose to feed on the meadows between Truro and Provincetown. Horses and cattle had eaten so much of the beach grass that the sand dunes were heading toward the meadow land.

Vegetable Cocktail Bar

Milwaukee, Wis., now has a vegetable cocktail bar that serves only vegetable drinks, declares the American Magazine. The operator is Mrs. Edith Lange, whose specialty is a garlic-parsley cocktail. It contains the juice of green peppers, with three cloves of garlic, and the juice of parsley mixed in.

Movie Fan

On a visit to the penal colony on Devil's island, French Guiana, Cameraman Pierre-Andre Martineau discovered the world's most enthusiastic movie fan. He was a convict whose body bore tattooed portraits of Garbo, Marlene Dietrich, Mary Pickford and other film stars. His gallery is now complete; he has no more room for pictures.

Bicycle Baby Trailer

An engineering works employee at Ashtabula, Ohio, has devised a "baby trailer" to be attached to bicycles or tricycles. Mike Zalimeni, seeking a patent on his device, says the "knee-action" trailer will enable people to take the baby along on bicycle trips.

For That Midnight Lunch

By Frances Lee Barton

THE midnight lunch will never be a drab affair so long as there is a piece of Angel Lemon Roll left in the house. A sandwich, a cup of tea or coffee, and a liberal serving of this delightful cake should please even a finicky mother-in-law. If you don't believe me, try this recipe:

Angel Lemon Roll

½ cup sifted cake flour; ½ cup egg whites; ½ teaspoon salt; ½ teaspoon cream of tartar; ½ cup, plus 2 tablespoons, sifted granulated sugar; ¼ teaspoon vanilla; ⅛ teaspoon almond extract.

Sift flour once, measure, and sift four more times. Beat egg whites and salt with flat wire whisk. When foamy, add cream of tartar and continue beating until eggs are stiff enough to hold up in peaks, but not dry. Fold in sugar carefully, 2 tablespoons at a time until all is used. Fold in flavoring. Then sift small amount of flour over mixture and fold in carefully; continue until all is used. Turn into 15 x 10-inch pan which has been greased, lined with paper to within ½ inch of edge, and again greased. Bake in moderate oven (375° F.) 15 to 20 minutes. Quickly cut off crisp edges of cake. Turn out on cloth covered with powdered sugar; remove paper. Spread with your favorite lemon filling and roll. Wrap in cloth and cool on rack.

Mahogany Native to U. S.

Mahogany is native to the United States. It is found though only in small quantities in southern Florida on the mainland and on the larger of the keys. It is the same species of mahogany that grows in the West Indies, where it is known principally as Santo Domingo or Cuban mahogany. An avenue in Miami is lined for many blocks with mahogany trees. The average person might easily mistake them for ash trees due to the similarity of the leaves. "Mountain mahogany" is a large shrub or small tree found in the western states. It is not a mahogany but a member of the rose family. The wood is very close grained and of a rich red color. The trees are small and the wood has not the stability of mahogany.

Washington's Farewell Address

Washington's "Farewell Address" was written primarily to eliminate himself as a candidate for a third term. It was never read by the President in public, but printed in Claypoole's American Daily Advertiser, Philadelphia, September 19, 1796. The address is in two parts. In the first Washington definitely declines a third term, gives reasons, and acknowledges a debt of gratitude for the honors conferred upon him and for the confident support of the people. In the second, more important part, he presents, as a result of his experience and as a last legacy of advice, thoughts upon the government.

Beginnings of Kindergarten

Maria Montessori, the Italian educator, studied at the University of Rome and graduated in medicine in 1894, being the first woman in Italy to do so. She then took up the subject of educating defective children. From the experience thus acquired, she came to the conclusion that similar methods might be applied to normal children of a lower age, and after a series of experiments on a small scale she extended them to a large number of children in private and public nursery schools in Rome. Her ideas on education have been set forth in several books which have been widely translated.

CCC Food Supplies

It takes 1,500,000 pounds of food every day to feed the boys in the CCC camps.

Height of Chimneys

Height plays a considerable part in the efficiency of a chimney, many authorities maintain. For this reason, chimney heights of 30 to 35 feet as a minimum are recommended. Any arbitrary minimums must be considered in the light of local conditions, however, as overhanging trees, the height of the chimney above the roof, and strong prevalent winds can cause disturbance in the draft action.

Taffeta For Effect

Youthful sophistication, inspired by the romantic Scarlett O'Hara, is reflected in the taffeta evening gown worn by Dorothy Gregory, lovely ingenue of the CBS serial "Scattergood Baines." Also reminiscent of earlier days is the use of old fashioned costume jewelry and fine old lace. The modern heroine individualizes her costume by draping the skirt a trifle to exhibit a bright ruffled petticoat.

College Attendance

The chances of attending college, which were one in 23 in 1900 are now one in six.

Early Disease Theory

The germ explanation of disease was advanced by a Viennese scientist, Fracastoria, as early as 1546.

TENSE MOMENT

This highly dramatic scene spotlights Brian Aherne, Louis Hayward and Madeleine Carroll and it is principally concerned with some of the strange quirks played by Fate on three human beings as portrayed in Edward Small's new picture, "My Son, My Son!" now showing at the Daly City theatre.

London's Autumn Flowers

In the countryside around London in the fall can be found Heather and Willow Herb in flower, Travelers Joy in the Hedgerows, Convolvulus, Teasles, Ivy in bloom, and plenty of blackberries and nuts for the gathering.

Australia's Wool Production

With Australia's wool production increased from 143,300 bales 11 years ago to 230,000 bales now, the country remains its own third best customer. Only France and Great Britain purchased more Australian wool last year than did Australia.

Tomato-Growing Champion

Lynchburg, Va., where Thomas Jefferson taught the public that the tomato was good to eat, now boasts a tomato-growing champion. W. E. Martin, the champ, produced a tomato plant which grew to a height of 12 feet in his back yard.

Largest Jewel

The Smithsonian institution has acquired the world's largest jewel. The stone is an almost flawless crystal of topaz, weighing 153 pounds, or 350,000 carats. The average topaz for a ring or necklace weighs about five carats. The huge gem was discovered in the Minas Geraes province of Brazil. Its color is pale blue on the outside and a pale sherry on the inside.

Western Duck Sickness

Vanez T. Wilson is one hunter who doesn't take his prizes home with him; he sets them free, reveals the American Magazine. Wilson is head of the Bear River Migratory Bird refuge at Brigham, Utah. He scours the marshes for sick ducks, and every year cures thousands of their most deadly disease—western duck sickness. The plague was brought on when irrigation projects took away too much water.

Abyssinian Burial Tree

In Abyssinia and other parts of Africa, the baobab tree is often used as a tomb and due to some property of the wood bodies placed therein become mummified.

Package Receiver

A package receiver, installed in the wall of the kitchen, is a useful but not costly feature which adds considerably to the comfort of the family and to efficiency in the home. It has a self-locking door which opens outside and is insulated and ventilated. Another useful feature in the home is a laundry chute, particularly for homes with basement laundries and second-floor sleeping quarters. They are installed in the walls and have vertical shafts which permit soiled clothes and linen to be dropped directly to the laundry.

Chemical Energy Relationships

Today chemists without having to conduct a single experiment can frequently calculate whether a certain product can be produced from new and untried raw materials, the American Chemical society reports. Energy relationships are studied to learn whether or not an untried reaction will liberate free energy. Energy has a natural definite tendency to scatter, and this tendency provides the driving force of chemical reactions.
